

# EARTHQUAKE SOUND

The Sound That Will Move You

## SIMXPERIENCE

### The Most Immersive VR Racing Experience

**Booth# 20600 South Hall 1 LVCC**

**Q10B & MQB-1**

Do you ever feel that VR systems lack that realistic feeling? Earthquake Sound would like to announce that we are teaming up with SimXperience this year at CES 2019 to shake your virtual world. On behalf of Earthquake Sound, we invite you to drop by our booth for a test drive. We will have a SimXperience Stage 4 Motion Racer and G-Force simulation experienced through the lenses of virtual reality. We ask that you take the opportunity to demo some of the latest racing simulation products from SimXperience. In addition, Earthquake will have its own personal touch with some of our products to further enhance this virtual racing experience such as the MPower-8 and award-winning Supernova MKVI.

Do you ever feel that VR systems lack that realistic feeling? Earthquake Sound would like to announce that we are teaming up with SimXperience this year at CES 2019 to shake your virtual world. On behalf of

Beyond the standard 2.1 setup, Earthquake's Q10B and MQB-1 tactile transducers will be placed on the simulator to provide you with the most immersive racing experience you will ever have by simulating road noise, directional impact, RPM, and much more.

SimXperience will reveal their new GS-5 GSeat for added pressure that G-Forces create on your body as if you were in a real racing seat. The Stage 4 Kit paired with Earthquake's MQB-1 and Q10B will give you the the most realistic racing experience that simply cannot be compared. This will be a professional quality racing simulation so please drop by our booth for the most fun you'll ever have without wheels.
